

## RS 2000

With the RS 2000 you can simulate crank shaft-, cam shaft- and wheel-speed-signals quickly and comfortable.

### Functions

Infinitely variable simulation of Hall- and inductive signal.

Adjustable on cylinder numbers from 4 to 12.

Usable for increment- and segment-systems.

### Electrical data

Power supply 12 V

### Part numbers

RS 2000 **B 261 206 862-01**

Wiring harness connector **B 261 206 451**
